

TTPA 6000 FARM

Approved Rules for 6000 Members

2022 – 2023 - 2024 Year Rules

1. Tractor cannot be over 70 HP from the factory for year and model.
2. Age Limit of tractor must be 1965 or older.
3. May pull in any gear.
4. Two-wheel drive only.
5. No Headers allowed.
6. **Engine Blocks and Engine Block Replacement:** Only Stock OEM blocks, or OEM replacement blocks allowed. (Example: Super M Farmall or 450 Farmall replaces M Farmall OEM engine, Oliver engines (88, 88S & 880 can run 310 motors 7 mains 12 port heads), All Moline's allowed to run taller model G Blocks, IH Combine 301 engine replaces IH 460/560 OEM engine). Any other makes and models that wish to swap engine blocks, first get approval from TTPA board of directors.
Must have stock appearing intake manifold.

Carburetor

7. Carburetor must be the original factory as purchased housing and original OEM bolt Pattern. Updraft carburetor only.
8. May run 20% over Nebraska test high idle – PTO / Crankshaft / Flywheel speed) will be checked after pull by TTPA Tech. Inspector. It's the driver's responsibility to have reflective tape on your tractor flywheel See General Farm Rule # 8.
9. **Must have positive throttle stops.** (Example: Double hex nut bolt stop) Will be inspected by Tech Rep. RPM's may be checked at any given time by the Tech Rep.
10. Tractors over 3000 RPM's must have a 6-band SFI approved safety blanket over the clutch and bell housing area.
11. John Deere ~ 2 barrel carbs Div. III all lettered JD Series allowed.

Traction Control

12. No traction assist allowed. (Differential lock-must remain open).

Wheelie Bars

13. Wheelie Bars mandatory with push blocks. (See TTPA web-site wheelie bar sketch). No conformance, NO hook to the sled. Will be inspected by Tech Rep.

Tires

14. Rear tire size maximum 18-4-38.
15. Cut Tires allowed -- Any cut allowed. - Radial tires allowed. No purpose built pulling tires (Ex: Pro Puller/Mitas)
16. **Speed Limit:** Maximum 5 mph. (Official speed monitor by Sled Speed Control Device).
 - a. Two (2) blast of horn allowed after 100 ft mark. Third blast (even a squeak of the horn) contestant will be disqualified.

- b. With the first two times the horn blows as a warning, contestant MUST make an attempt to slow down or will be disqualified.
- c. The maximum duration each time the horn blows (squeaks) will be limited to three (3) seconds. (More than three seconds gives the track official authority to immediately disqualify the contestant!)
- d. Contestant can blast the horn as many times as they like before the 100 foot mark. (*These horn blasts will not count against the puller anytime before the 100 ft. marker. After the 100 ft. marker, the three count starts.*)

Weights

17. All weights must be stationary and safely secured to tractor. If anything should fall off from the tractor (weights or parts) while hooked to the sled, you will be disqualified immediately. (Bungee cords and tarp straps NOT allowed securing any weight on the pulling tractor).
18. Front end weights: The weight bar or weights shall not exceed more than Eleven (11) feet forward from the center of the rear axle to the furthest point forward of the tractor.
19. If three-point arms are used to hang weight, it must be securely fastened as so it cannot drop down on hooker. Hooker must also have easy & safe access between weights to hook. (See Rule #20)
20. Bungee cords and tarp straps are NOT allowed to secure weight to pulling unit weight brackets.
21. All TTPA paid dues members must have working kill switches.

Hitches

22. Vertical hooks only. The sled hooker will only hook the tractor in a vertical drop. If weights interfere with the vertical drop, you will not be hooked & will be disqualified.
23. Hitch supports are not allowed to exceed the centerline of the rear axle, unless OEM from factory.
24. Two (2) $\frac{3}{4}$ " Grade 8 bolts or, turnbuckles will be allowed to be used to support the frame that controls the height of the primary pulling hitch. (Note: Hitch must be fastened rigid in all directions.)
25. No turnbuckle or bolts can or, will be allowed to be fastened off the rear of the tractor and directly fastened (welded / bolted) to the Primary Pulling drawbar. (You will not be allowed to hook to the sled).
26. **Re-pull position:** When the first ("Test Puller") Farm Class Puller turns down their pull, they have the option to come as last puller, in the lineup.
27. No Riders allowed on pulling sled once the class has started while Farm Division Tractor's are pulling the sled. This will result in a restart of the entire class.
28. All general track and general farm rules apply with the exception of the RPM adjustment (see 6000 Farm Rule #10. (PLEASE READ THEM ALL).
29. RULES WILL BE ENFORCED THROUGH PULLING SEASON 2022 – 2023 - 2024.
30. ALL RULES ARE IN PLACE FOR three (3) YEARS, ENDING (POST) 2024 PULLING SEASON. RULES MAY BE CHANGED FOR SAFETY. A NON-SAFETY RULE CAN BE CHANGED only IF, THE "MEMBERSHIP OF THE CLASS" 100% AGREES, AND THE BOARD GIVES UNYNONAMOUS APPROVAL. Or, if the board makes changes for better show quality. **Do not assume you can change something on your tractor that may not in the rules, and ask later, you could be disqualified.**
31. Farm class tech. officials. See TTPA web-site for current year Representative & phone number
